

PEDESTRIAN SAFETY PROGRAM

City of Charleston, SC

Pedestrian Signal Information:

START CROSSING

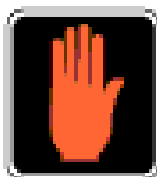

(Watch for Vehicles)

FLASHING

DON'T START

(Finish Crossing
If You've Begun.)

STEADY

DON'T CROSS

When you see the *walking man* symbol, look both ways and carefully cross the street.

When you see the *flashing hand* symbol, finish crossing if you have already begun to. If you have not begun to cross the street, wait until your next turn to cross. Sometimes a countdown will also be shown. This is good: it shows you how much time you have left to cross if you have already started to!

When you see the *steady hand*, DO NOT attempt to cross the road. Be patient and wait until the walking man symbol is shown again before you cross the street.
